

## Press Release

# Multi-biometrics provide maximum security.

## CeBIT 2017 – Against identity fraud with DERMALOG solutions “Made in Germany”.

As one of the pioneers in the development of biometric products, DERMALOG Identification Systems has shaped the world of modern security technology. The largest German biometrics company has supplied states and governments all over the world in its more than 20 years of corporate history. From 20. - 24. March DERMALOG displays the use and possible combinations of different biometric solutions. (Hall 6, Stand J39)

**Hanover, 16.03.2017** DERMALOG scientists continuously develop Biometric Identification Systems. Here it is possible to highlight Fingerprint Recognition, Face Recognition and Iris Recognition. Accuracy and speed of these algorithms are optimized continuously - to be able to identify individuals in large-scale databases. Used combined in one project, multi-biometric solutions provide a crucial contribution against identity fraud.

*“Our multi-modal ABIS (Automated Biometric Identification System) combines several biometric methods”,* says DERMALOG founder and managing director Günther Mull. ABIS is a fully customizable software package. It provides the ability to match, store or process the captured characteristics, so-called biometric templates. As a multi-biometrics provider, DERMALOG is able to link for example Fingerprint Recognition to Face Recognition.

Complete National ID Card Systems, ID Cards for the organisation of Health Systems, passports and Border Control Systems are only one part of the possibilities. In addition, Criminal Investigation, Refugee and Voters Registration, banking business as well as payment systems can be raised to a high standard with biometric solutions by DERMALOG. Including scanner hardware the “Biometrics Innovation Leaders” product portfolio includes fixed and mobile solutions.

**Used combined in one project, multi-biometric solutions provide a crucial contribution against identity fraud.**

*“Specific requirements due to the security situation and the local conditions are our daily business”,* says DERMALOG CEO Günther Mull. *“DERMALOG as manufacturer, supplier and System Integrator is able to implement solutions very quick, even into existing projects. Our “Turnkey Solutions” are reliable, intuitive to operate and most of all fast and secure.”*

## About DERMALOG:

DERMALOG Identification Systems GmbH with head offices in Hamburg is Germany's pioneer for biometry and the largest German manufacturer of biometric devices and systems. One of the shareholders in DERMALOG is the state-owned German "Bundesdruckerei".

DERMALOG employs a team of scientists who continuously develop biometric identification systems (so-called "AFIS" and "ABIS" systems), including cutting-edge fingerprint scanning devices. The product portfolio is complemented by Biometric Border Control Systems and Biometric ID cards and passports as well as Biometric Voting Systems. "FingerLogin", "Finger- Payment" and "FingerBanking" are also solutions developed by DERMALOG, as are systems for automatic Face and Iris recognition.

As well as Germany and Europe, the main markets of DERMALOG are in Asia, Africa, Latin America and the Middle East. To date, the company has provided its technologies and solutions to more than 200 large scale installations in more than 80 countries.

In addition, DERMALOG offers biometric solutions for banks and for the manufacturers of Automatic Teller Machines. This includes the largest biometric banking project world-wide (USD 50 million), which was delivered by DERMALOG (the so-called "BVN Project"): 23 banks and the Central Bank of Nigeria were provided with DERMALOGs ABIS, which prevents double identities among bank customers by means of finger and face recognition and guarantees the best-possible biometric identification of customers (KYC) for these banks. Furthermore, many ATMs across the globe have been equipped with DERMALOG's fingerprint technology.

**HIGH TECH**
